📍 Medina , Saudi Arabi

Profile

A passionate Computer Science graduate with a strong interest in Artificial Intelligence, Cybersecurity, and Networking. I enjoy learning new technologies, building my skills, and I'm excited to grow through real-world experiences in the tech field

Education

Bachelor degree of Computer Science <i>Taibah University</i>	2025
Diploma degree of Computer Networks <i>Taibah University</i>	2020

Skills

Communication

Flexibility

Programming Languages

- Java
- Python
- C#
- sql
- c++

Adaptability

Teamwork & Collaboration

Software Proficiency

- Microsoft Office Suite : Word | Excel | PowerPoint | Outlook

Certificates

- AI Foundation for Everyone – Saudi Data & AI Authority (SDAIA)
- Introduction to Cybersecurity – Cisco Networking Academy
- Cybersecurity – Doroub

Project

In my project, we analyzed tourism in Medina by studying Google Maps reviews of tourist attractions. We used artificial intelligence to classify comments into negative, neutral, and positive. The SVM algorithm helped us achieve an accuracy of 80.5%. In the end, we discovered a gap between user comments and star ratings.

Internship

Deanship of Information Technology - Taibah University	02/2020 – 03/2020
I completed my diploma field training at the Deanship of Information Technology, where I gained hands-on experience in IT support, including formatting devices, setting up printers, and connecting systems to the network.
