PROFILE

Computer Science graduate specializing in Networking with hands-on experience in network infrastructure, protocol configuration, and diagnostics. Completed a co-op at SBA, working in Network Support and Operations. Familiar with Python. Eager to apply problem-solving and technical skills in a collaborative IT/network engineering environment.

EDUCATION

Bachelor In Applied Computer Sciences Major Track of Computer Networks,   05/2020 – 08/2025
KING SAUD UNIVERSITY
Second Honors

EXPERIENCE

Co-op Trainee, *Saudi Broadcasting Authority (SBA)*   01/2025 – 07/2025
Worked in the Network Support and Operations Center, gaining hands-on
experience in maintaining enterprise-level network infrastructure.
- Configured and managed switches, routers, and access points.
- Identified and resolved connectivity issues, accurately diagnosing network faults.

SKILLS

- Troubleshooting and problem solving
- Ability to learn quickly and apply knowledge effectively
- Familiarity with tools such as Wireshark, VMware, Cisco Packet Tracer, and GNS3
- Collaboration and teamwork
- Time Management

PROJECTS

Detection and Classification of Bone Fracture Based on Machine Learning, *Graduation Project*
Developed a deep learning-based system for classifying fracture types from X-ray images using advanced neural network models and applied transfer learning and data preprocessing techniques to improve fracture detection and diagnostic accuracy.

VLAN Configuration
Configured and managed VLANs for a network, allowing segmentation of network traffic and improving security.

DNS and DHCP Configuration
Configured a DNS and DHCP server in a virtual machine using Vmware and Gns3 to assign dynamic IP addresses to clients.
